Update SP12X WC front

Contributed by REV Scale Tuesday, 26 June 2007 Last Updated Tuesday, 26 June 2007

Team Corally has released new tuning parts such as the Lower A-arm spacers in graphite (#75956) for ride height adjustment and Cross Brace in graphite (#75958) for greater stiffness.

Also a new type of 43 mm duraluminium turnbuckles (#79274) have been specially manufactured for use with the SP12X WC front suspension.
